DEFEAT DIZZINESS

Recognize the symptoms of a vestibular disorder for a quick diagnosis in order to receive effective treatment.

FEELING DIZZY?

- Vertigo/Room-Spinning
- Imbalance
- Dizziness/Lightheadedness
- Blurred Vision
- Hearing Changes

Did you know?... More than **1/3**

of adults in the U.S. 40 and older have experienced some sort of vestibular dysfunction. **Balance** is easily taken for granted.

Let's "Defeat Dizziness" together and spread awareness that there is help for those who suffer from dizziness and imbalance. Call or come by our office to learn more about vestibular disorders and symptoms.
