

# A Better Option.

## Our Technology

## Parata Pass

- Advanced technology with automated packet filling to reduce errors and provide speed and accuracy
- Patient name, medications, dose, and time of administration printed clearly on each packet
- Packs labeled with the date and day of week

## Parata Perl

- *An automated visual inspection system that increases accuracy and safety*
- *Inspects every packet*
- *Inspects up to 5 packets per second, making it the fastest pouch inspection technology on the market today*
- *With two powerful HD video cameras, Perl images and identifies the contents of each packet*

# Why we are a better option

## Pharmacy Software

### *Framework LTC*

- E-prescribing, including controlled substances
- Developed for long-term care
- Assists pharmacist in screening for drug to drug interactions, allergies or prior adverse reactions, duplicate therapies, and drug/disease interactions
- Interfaces with PointClickCare, Matrix, and most other EHR's

### *DocuTrack*

- Paperless fax storage system
- Allows the pharmacy to access orders instantly and find prescription stats with one click

## StatSafe Automated Med Management

- *Up to 350 medications available for STAT and after hour use*
- *Inventory managed by pharmacy daily*
- *Controlled substances secured and double locked*
- *Reports for nursing management*
- *Personal password protected*
- *Separate secured unit for refrigerated items*
